

# PathTezt® SedPrep system

**Introducing  
PathTezt® SedPrep  
system, an advanced  
breakthrough in  
cytopathology  
diagnostic solutions:**

Efficiency : 50-75% fewer steps to process test sample.  
Error Reduction : <0.3% unsatisfactory rate  
Easy To Set Up : Low cost invest  
Cost-Effective : Up to 60% lower cost per test  
Universality : With Gyn and Non-gyn Cytology applications  
Standardized : Improve the slide quality

Conventional

PathTezt® SedPrep

With PathTezt® SedPrep system, labs produce a well-fixed, highly cellular, and thin-layer sample free of mechanical and procedural artifacts. The enhanced quality of a PathTezt slide allows the reviewer to more effectively analyze cells during microscopic evaluation.
